

# Curved Shower Rods

190 SERIES

Oval Tub

Standard Tub

**MATERIALS:** Tubing is 1" O.D. x .028 (22 gauge) seamless type 304 stainless steel. 190-5W & 190-6W tubing is .035 20 gauge steel, powder coated white. Swivel Brackets are zinc die cast. Screw Hole Cover Plate is ABS plated plastic.

**INSTALLATION:** Mount wall plates 3" inside where a straight rod would normally go with 4 - #8 x 1-1/2" flat head stainless steel screw provided. Place rod with swivel connectors attached and set screws facing up into wall plates. Screw in and tighten 4-3/4" retaining screws. Adjust rod and tighten set screws into swivel connectors with allen wrench provided. Wood blocking is preferable behind all wall surfaces. If wood blocking is not available, use anchors or plugs provided with screws. See complete mounting, installation and anchor instructions in each rod package.

**SPECIFICATION:** Curved shower rod shall be model \_\_\_\_\_  
(fill in model number) by Liberty Hardware Manufacturing Corporation.
