**Liberty Hardware Featured on Weekend  
Makeover TV**

*Airs Friday, February 10, 2006 on The Travel  
Channel*

Liberty Hardware Manufacturing Corporation is one of eight companies featured on Weekend Makeover TV. The 30-minute show is scheduled to air on The Travel Channel Friday, February 10, 2006 at 8:30 a.m.

The show offers a 3 minute segment that highlights Liberty's history, its 680,000 square-foot distribution center and showcases a variety of hardware products offered by Liberty. The show is broadcast to 75 million potential households and will air to over 90 percent of Travel Channel's entire audience.

"We're thrilled to feature our products on a national television station such as The Travel Channel," said Greg Furdas, Sr. Director of Marketing. "With this project, we want to let consumers know about our products and inform them just easy and affordable it is to get a new look in their kitchen or bath."

Derick Brink, our former Director of Marketing Services, was featured in the Weekend Makeover segment that also shows the transformation of a kitchen by simply switching out the knobs and wall plates.
